# **GOVERNMENT OF** PANAMA CANAL

Commissioners Should Be Clothed With Legislative, Executive and Judicial Powers, Says Taft.

WASHINGTON, March 9.- The subcommittee of the Senate Committee on Interoceanic Canals today heard Secretary Taft relative to legislation for the Government of the canal zone. The Secretary strongly recommended legislation by Congress clothing the canal commission with legislative, executive, judicial and administrative power over the canal strip under direction of the President. He was opposed to any judicial control, and stated that if there are two boards "you will have trouble on your hands all the

He said provision for extradition should be made and that tariff duties should be imposed on goods coming from the canal strip to the United States as from foreign countries, in order to prevent smuggling. The committee should have power to fix rates on duty on goods going into the strip from the United States and foreign

strip from the United States and foreign countries.

Secretary Taft was asked if the commission should be placed under the War department, and replied that the department was not seeking any such responsibility, and that Admiral Walker, chairman of the commission, was very much opposed to any such action. He pointed out, however, that the advantage of so doing was that the War department with its insular bureau had the machinery for doing the work of the commission.

Socretary Taft expressed the opinion that by the treaty all powers of sovereignty over the canal zone had passed to the United States, although actual sovereignty in express terms had not been surrendered.

He thought the commission should have about the same power as was given the Philippine commission. The commission could be authorized to pass laws operative until disapproved by the President.

Speaking of placing the canal commission under the jurisdiction of the War department the Secretary said anti-imperialists would raise the cry that it was an evidence of military despotism.

"I can speak for one old live, dyed-inthe-wool Democrat," said Senator Morgan, "who will not be disturbed by any such clamor, and who approves the suggestion that the War department have control of the matter."

Other Senators expressed the opinion

that the War department have control of the matter."
Other Senators expressed the opinion that the commission should be under supervision of the War department.
Dr. Walter Wyman, surgeon-general of the public health and marine hospital ser-vice, urged that provision be made for extending the marine hospital service to Panama.

the duty of the bishops' court to pass the morals of those who live in their wards or districts. "Does that include officials of the church?" was asked.

"But now that you are president, what would you do if such charges were made?" asked the chairman. Mr. Smith said he would not investigate the case because that was the duty of lesser officials.

Chairman Burrows asked in regard to the marriage ceremony performed in the church. He spoke of the marriages for time, the marriages for time and eter-nity, and the marriages for eternity only, and asked if the latter is not

Chairman Burrows asked the witness to identify the Book of Mormon, and then turning to the revelation of the prophet, Joseph Smith, he asked specifically in regard to the manner it was revealed, and was informed that it was revealed to him by God Chairman Burrows asked if polygamy was taught in that book, and Mr. Smith answered that it was emphatically for-

Reading from the book which is called the Mormon Bible, Chairman Burrows called attention to the words of God in reference to David and Solomon and his displeasure because of the fact that he kept more than one wife and many concubines. The chairman asked if that did not prohibit polygamy, and, if that was the case, when was the law of the Lord changed in order to permit the practice.

Mr. Smith said the book or the law had not been modified, and that the chairman had read only a part of the

Mr. Smith took the book and read a verse which declared that when the Lord wanted his seed propagated he would command it. This, the witness declared, justifies polygamy when a person is commanded by the Lord to enter that state. He said the command came to individuals as revelations from the Lord the Lord.

Senator Dubois asked a number of uestions in regard to the revelations questions in regard to the revelations received by Mr. Smith, but Mr. Van Cott, counsel for the defense, objected to the character of the inquiry. He proceeded to discuss the point at some length, when Senator Hoar interposed, saying that "he would object to arguments by the attorneys calculated to overthous the rules established." ments by the attorneys calculated to overthrow the rules established by the Senate years ago in the matter of conducting investigations." He said the counsel were present for the purpose of adding the inquiry, and that it could be presumed by them that the Senators would do justice to all parties. He said would do justice to all parcies. He said it was not his wish that any question be put to convey the impression to the minds of those present that because of his strong conviction of the inconsis-tency of delusion of religious faith of the witness that he questioned the right of the State of Utah to elect

Smith said no new revelations are in-corporated in the Book of Mormon, but in the Doctrine and Covenants. Senator Hoar asked some questions,

"Because I had committed a crime."
"What crime?"
"Adultery, to be frank." "Why do you think Mr. Smoot caused our arrest?"

Because before I reached home the Sheriff overtook and put me under ar-rest. I blamed Smoot for sending the Sheriff after me. I thought he might have given me more time, although the crime was a bad one. I do not know that Smoot was responsible for my ar-rest, but it looked much like it."

which Mr. Smoot was present.

At other meetings he had heard discussed the continuance of plural marringes, and the apostles had taken steps to prevent it. Polygamous cohabita-tion, he said, had not been considered. When he (Smith) went on a foreign mission to Great Britain he had been instructed not to discuss polygamy. He never had discussed it as an apostle, but when he was a missionary he had told certain persons who assailed the doctrine that it was a teaching of the Bible, and had ended the controversies by referring the persons to the Bible so "they could judge for themselves"
